THE WORLD'S MERCY. By Maxwell Gray, author of "The Silence of Dean Maitland," etc., etc. New York. D. Ap-pleton & Co. Bound in paper; 27 pages. Price 50 cents.

The latest issue of Appleton's Town and Country Library series is a collection of stories by Maxwell Gray, the initial story, stories by Maxwell Gray, the initial story, "The World's Mercy," giving its name to the volume, Maxwell Gray needs no introduction to the reading public. This volume contains five short stories, the first being the longest and most pretentious. "The World's Mercy" would be more truly named "the World's Lack of Mercy." It is told in strong, virile fashion, and is a tale of sin, sorrow and repentance. "Sweet Revenge" is a bright, witty sketch, and "The Widow's Clock" is a pathetic little story of rural life and love. "An Old Song" and "A Summer Night" complete the collection.

THE FINAL GOAL. By Bessie Dill, author of "The Story of Bell." Lippincott's Select Novels. Philadelphia. J. B. Lippincott. Paper, 50 cents.

It is refreshing to read a novel which ends happily. "They were married and lived happy ever after" was always the favorite ending of the much-loved fairy tules of childhood. While in this matter-of-fact day and generation such an ending may seem juvenile, yet even in this age of materialism there are those who believe the "world well lost for love." In "The Final Goal" Bessie Dill (L. Belth Dalziel) has written a fascinating lovestory, which ends happily for all con-Dalziel) has written a fascinating love-story, which ends happily for all con-cerned. There is nothing especially novel in the plot, in fact there is not much plot in the story. The book has its shadows in a man's inhumanity to a trusting wo-man, his tardy act of justice and of sep-aration so far as lay in his power, but the record of the love affairs of the younger generation is a nleasing story. younger generation is a pleasing story. The scene is mostly laid in Scotland and the author's exquisite descriptions of the natural beauties of the country remind one of the gorgeous word-painting of the lamented William Black.

### The Magazines.

"Armies That Do not Mean to Fight" is the opening article in "EVERYBODY'S MAGAZINE" for the current month. Under this heading, Herbert Vivian writes of the standing armies to be found in various neutralized countries, which are guaranteed by the Powers against foreign guaranteed by the Powers against foreign invasion. James Scott describes "Some Interesting Insects," and J. The editor has evidently had in mind the multitude of visitors to the French Exposition in organizing the series on "Parls of To-day," by Richard Whiteing, author of "No. 5 John Street" and "The Island." The first of these papers, "Parls Revisited," appears in this number. The French illustracor Castaigne, provides a running pictorial comment on the text. The West as the Eastern author sees it, or at least writes about it, and the West as it actually is, are the theme of a trenchant essay by E. Hough, author of "The Story of the Cowboy." In "Midwinter in New York," Jacob A. Riis tells incidentally how the American metropolis looked to him from his native Denmark, and how he wore a navy pistod strapped around his waist when he landed in New York, and was keenly disappointed at finding asither buffaloes nor Indians in Broadway, Other contents of the number are a group of poems, "The Hoosler Youngster," by Jas. Whitcomb Riley, illustrated by Florence Scovel Shinn; an anonymous article on "The Military Element in Col. Oliver Wendell Holmes was one of the earliest admirers of Miss Leonora Jackson, whose performances on the violin are now winning so much approval in Europe and America. When she was last in Boston (January, 1894) prior to her final departure for Europe, he had her eeme several times to play to him quiet-ly in his study without accompaniment of ly in his study without accompaniment of piano. He said one day that he had once studied the violin for some time, but added quickly, "not because I thought I could ever play it, but because I wanted to know its difficulties and see just what a violinist's muscles are called on to do." When Miss Jackson last took leave of Dr. Holmes, he wished her Godspeed and every success with her violin studies, and then broke up a set of his best-bound then broke up a set of his best-bound. works in the library and gave her a copy of 'Over the Tea Cups' with an inserta-tion consisting of a verse and the words: "With kind regards and best wishes of her listening and admiring friend, Olive Wendell Holmes, Boston, January 4, 1324. -New York Evening Post.

After the American tour Paderewski and his wife will go to England for a few concerts, and then take a rest at the new estate he has bought in a valley of the Tatra Mountains, between Galisia and Hungary. Sixty-nine new operas (oratorios are included in the official list) were produced in Italy last year, but none, it seems, with any special success. None of the leading Italian composers, such as Mascagni, Puccini, Leoneavallo, nor, of course, Verdi and Boito, were represented

The reason why Brahms refused all the invitations to come to England and be "doctored" is out at last. It was his hatred of the swallow-tailed coat and other conventionalities of English life. Dr. Widmann has given an amusing account of Brahms' home life, his early rising to make for himself a cup of coffe in a Viennese machine, the coffee berries being sent in prodigious quantities by a lady admirer of Marseilles, his work under the veranda at Thun, and his dinner der the veranda at Thun, and his dinner in a restaurant garden, where he could wear a striped flannel shirt and no collar, with in colder weather a brownish gray shawl thrown over his shoulders. Widmann was the German librettist of Goetz's "Taming of the Shrew," and in his company Brahms conceived the filea of writing an opera.
